Amberg Technologies Ltd is a leading provider of integrated measuring system solutions for recording and analysis of structural information in the infrastructure sector. Sound knowledge and a consistent focus of business activities on the area of infrastructure construction, especially tunnel and railway construction, generate high-quality system solutions known all over the world. Amberg Technologies Ltd is a Swiss enterprise which operates globally as a company of the Amberg Group.

At our location in Brno / Czech Republic, we seek to fill the following position (m/f):

Software Developer (Brno)

Your challenges:

- Shape our future software solutions for rail and underground infrastructure.
- Maintain and develop our current product portfolio of tunnel and track surveying solutions.
- Use of modern development techniques and tools in an agile and international environment.

Your profile:

- Knowledge and interest in programming with C# / ASP.NET Core
- Motivation to learn from a full-stack development team
- Communicative, collaborative, self-motivated person with analytical thinking
- University degree, good knowledge of Czech/Slovak and English

Your profile:

- Full time occupation with competitive salary conditions and a bonus system
- Flexible working hours, corporate events, home office, notebook, refreshments on workplace, meal tickets / catering allowance, multisport card, international conferences, educational courses and training.
- Offices close to Brno city center.

If you are willing to accept the challenges of our R&D roadmap, let us know how you can contribute. We are on an exciting path and able to offer an attractive working environment for a creative, flexible and inventive person. We would be pleased to receive your application at **amberg@amberg.cz**.
