

Amberg Technologies AG is a leading provider of integrated measuring system solutions for recording and analysis of structural information in the infrastructure sector. Sound knowledge and a consistent focus of business activities on the area of infrastructure construction, especially tunnel and railway construction, generate high-quality system solutions known all over the world. Amberg Technologies AG is a Swiss enterprise which operates globally as a company of the Amberg Group.

At our location in Brno / Czech Republic, we seek to fill the following position:

Software Developer C# / .NET / 3D / Web

Your challenges

- Support the transition of our products from classical desktop applications to web applications
- Develop products with high-level 3D visualization
- Software development for new products and maintenance of the existing product portfolio in the tunnel business
- Use of C#/.NET, TypeScript

Your profile

- You have an agile mindset and full-stack-thinking
- Successfully completed engineering studies (BSc/MSc in computer science, electrical engineering, etc.) and relevant experience in the above-mentioned technologies
- 2+ years' experience and know how in the development of technical applications
- Experience in C++ would be an asset
- You take over responsibility and accountability for your work
- If you also speak fluent English and good Czech then you're a perfect match

If you are willing to accept the challenges of our roadmap and wish to work with agile development methods, let us know how you can contribute. We are on an exciting path and able to offer an attractive working environment for a creative, flexible and inventive person.

We would be pleased to receive your application at jkral@amberg.cz.

Amberg Engineering Brno a.s., member of Amberg Group, Mr. Jiri Kral, Lead of the Software Development Department, Ptasinskeho 10, 602 00 Brno, Czech Republic.
